Administrator

These works of art by Robert Aldern were chosen to be reproduced as Fine Art Giclée Prints. The majority are from the personal collection of the artist. Originals from his private collection are rarely offered for sale. Over the years, many collectors have requested reproductions of his work. Included in this price listing are limited printings of liturgical studies, landscapes and still lifes. As new artwork is made available, this listing will be updated.

What is a Giclée Print?

Giclée (pronounced “zheeclay”) is a French word meaning “fine spray”. Giclée prints are produced by spraying the image in a continuous tone onto fine art paper. This eliminates the halftoning used in mass production methods and increases detail and quality to a level that far surpasses previous technology. The inks used are specially formulated so that fine print heads spray jets of ink in minute droplets. Each proof is calibrated to the color of the original artwork and is reviewed and approved by the artist. The paper is acid-free, 100 percent cotton rag, Radiant White Somerset Velvet. The velvet surface allows for rich detail and accuracy. The inkset is Ultrachrome 7-color archival pigment inks, designed to achieve maximum color range and archival stability. The prints are produced at Kretzmann Studios, Minneapolis, Minnesota.

What does “Limited Fine Art” mean?

Each print size is limited to a total quantity of 200 to 500. The proofs are approved by the artist and printed by a master printer in quantities of 1 to 5 at each printing. This enables the color to be matched to the original artwork.
